

## Removable Dentures Consent Form:

**Undesirable Outcomes:** We make no guarantees or warranties on the services, restorations or appliances we provide. We make no guarantees and we offer no refunds. Thus, night guards, retainers, restorations, dentures, implants, root canals and dental appliances are all subject to undesirable outcomes.

**Dentures:** We do NOT provide any warranties or satisfaction guarantees on dentures. If you purchase a denture you must expect some fit problems, pain, discomfort and abrasion to your gums. Dentures rarely fit perfectly. Furthermore, your pre-existing alveolar ridge is a factor for the fit of your denture. If you lack alveolar bone then your denture can not fit well.

**Denture Relines:** Denture relines are not guaranteed to improve the fit of your denture. Reline is done to try and improve fit, but sometimes reline makes the denture more ill-fitting.

**Denture Adjustments:** We provide 2 free adjustments for dentures made by our doctors. Free adjustments are only available for 60 days from delivery date. The patient must pay \$207 per adjustment for additional adjustments.

### **Dentures are not comfortable!**

Dentures are always uncomfortable, they always let food get trapped underneath, they always rub your gums and cause ulcers, they always move around when you eat and talk which makes them uncomfortable. If you don't want those problems then you need to get second opinion from an oral surgeon for implant hybrid denture which uses dental implants as abutments.

**Denture Lab Times:** Dentures can easily take 3 months to complete. It requires atleast 5 different appointments and atleast 2.5 months due to the lab turn over times inbetween each step of the process. If you dont want to wait patiently throughout this process please get a second opinion from a different dentist such as prosthodontist Dr. Marlin in Washington DC.

**Prosthodontist Referral:** If you want excellent prosthodontic results then you must use a prosthodontist. Dr. Marlin prosthodontist in DC is a expert in denture therapy. Please get a second opinion from him if you want the absolute highest level of expertise for dentures.

### **WARNINGS ABOUT DENTURES AND OTHER REMOVABLE APPLIANCES :**

No guarantee that you will have a "good fit" to your denture. Most dentures have "ill fit" with food impaction problems, lack of stability, lack or retention, damage to adjacent teeth and gums and ulcers on the gums etc. No refunds or guarantees provided on removable dentures. We make them with the best techniques and materials possible. However, they are inherently low performance dental appliances riddled with problems. Thus, we make them reluctantly and we recommend dental implants instead. We offer zero guarantee, warranty or refunds for removable appliances such as dentures. We recommend you go to a prosthodontist such as Dr Gerard Marlin in Washington DC for expert level care with regards to removable appliances such as dentures.

We charge full fee for any denture relines that may be required for our denture patients. We provide no guarantee the reline will improve the fit of the denture. If the denture is rendered useless to the patient following reline then the patient will be charged full fees to manufacture a new denture for them because we provide zero warranty or guarantee that a reline will actually improve the fit of the denture. We provide zero warranty or guarantee that the reline will provide the desired results. We charge for our time, effort and over-head expenses.

### **Legal Fees:**

The dental company is entitled to claim legal fees and lost wages incurred for any situation where legal action against the dental company is initiated and ultimately unsuccessful.
